

CookmeAI

Culinary with AI

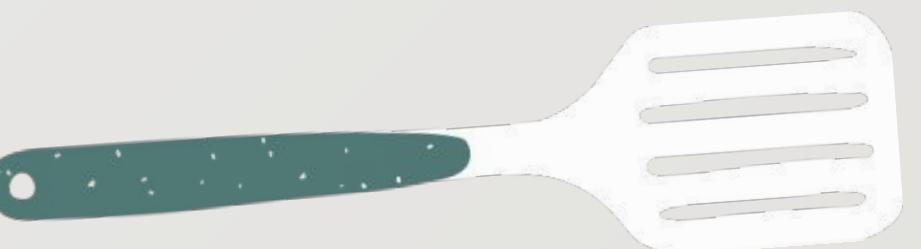

Project Overview

CookmeAI is an AI-powered web application designed to assist users with cooking related queries.

Key Features:

- Instantaneous response to cooking questions
 - Concise summaries of preparation steps
 - User-friendly interface powered by Streamlit

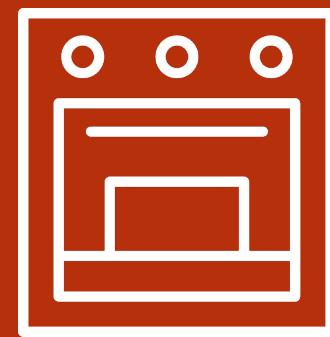

Use Case Scenario

THE BUSY PROFESSIONAL

Emma, a busy professional, wants to cook dinner but has limited time for meal preparation.

She visits CookmeAI and inputs her cooking query.

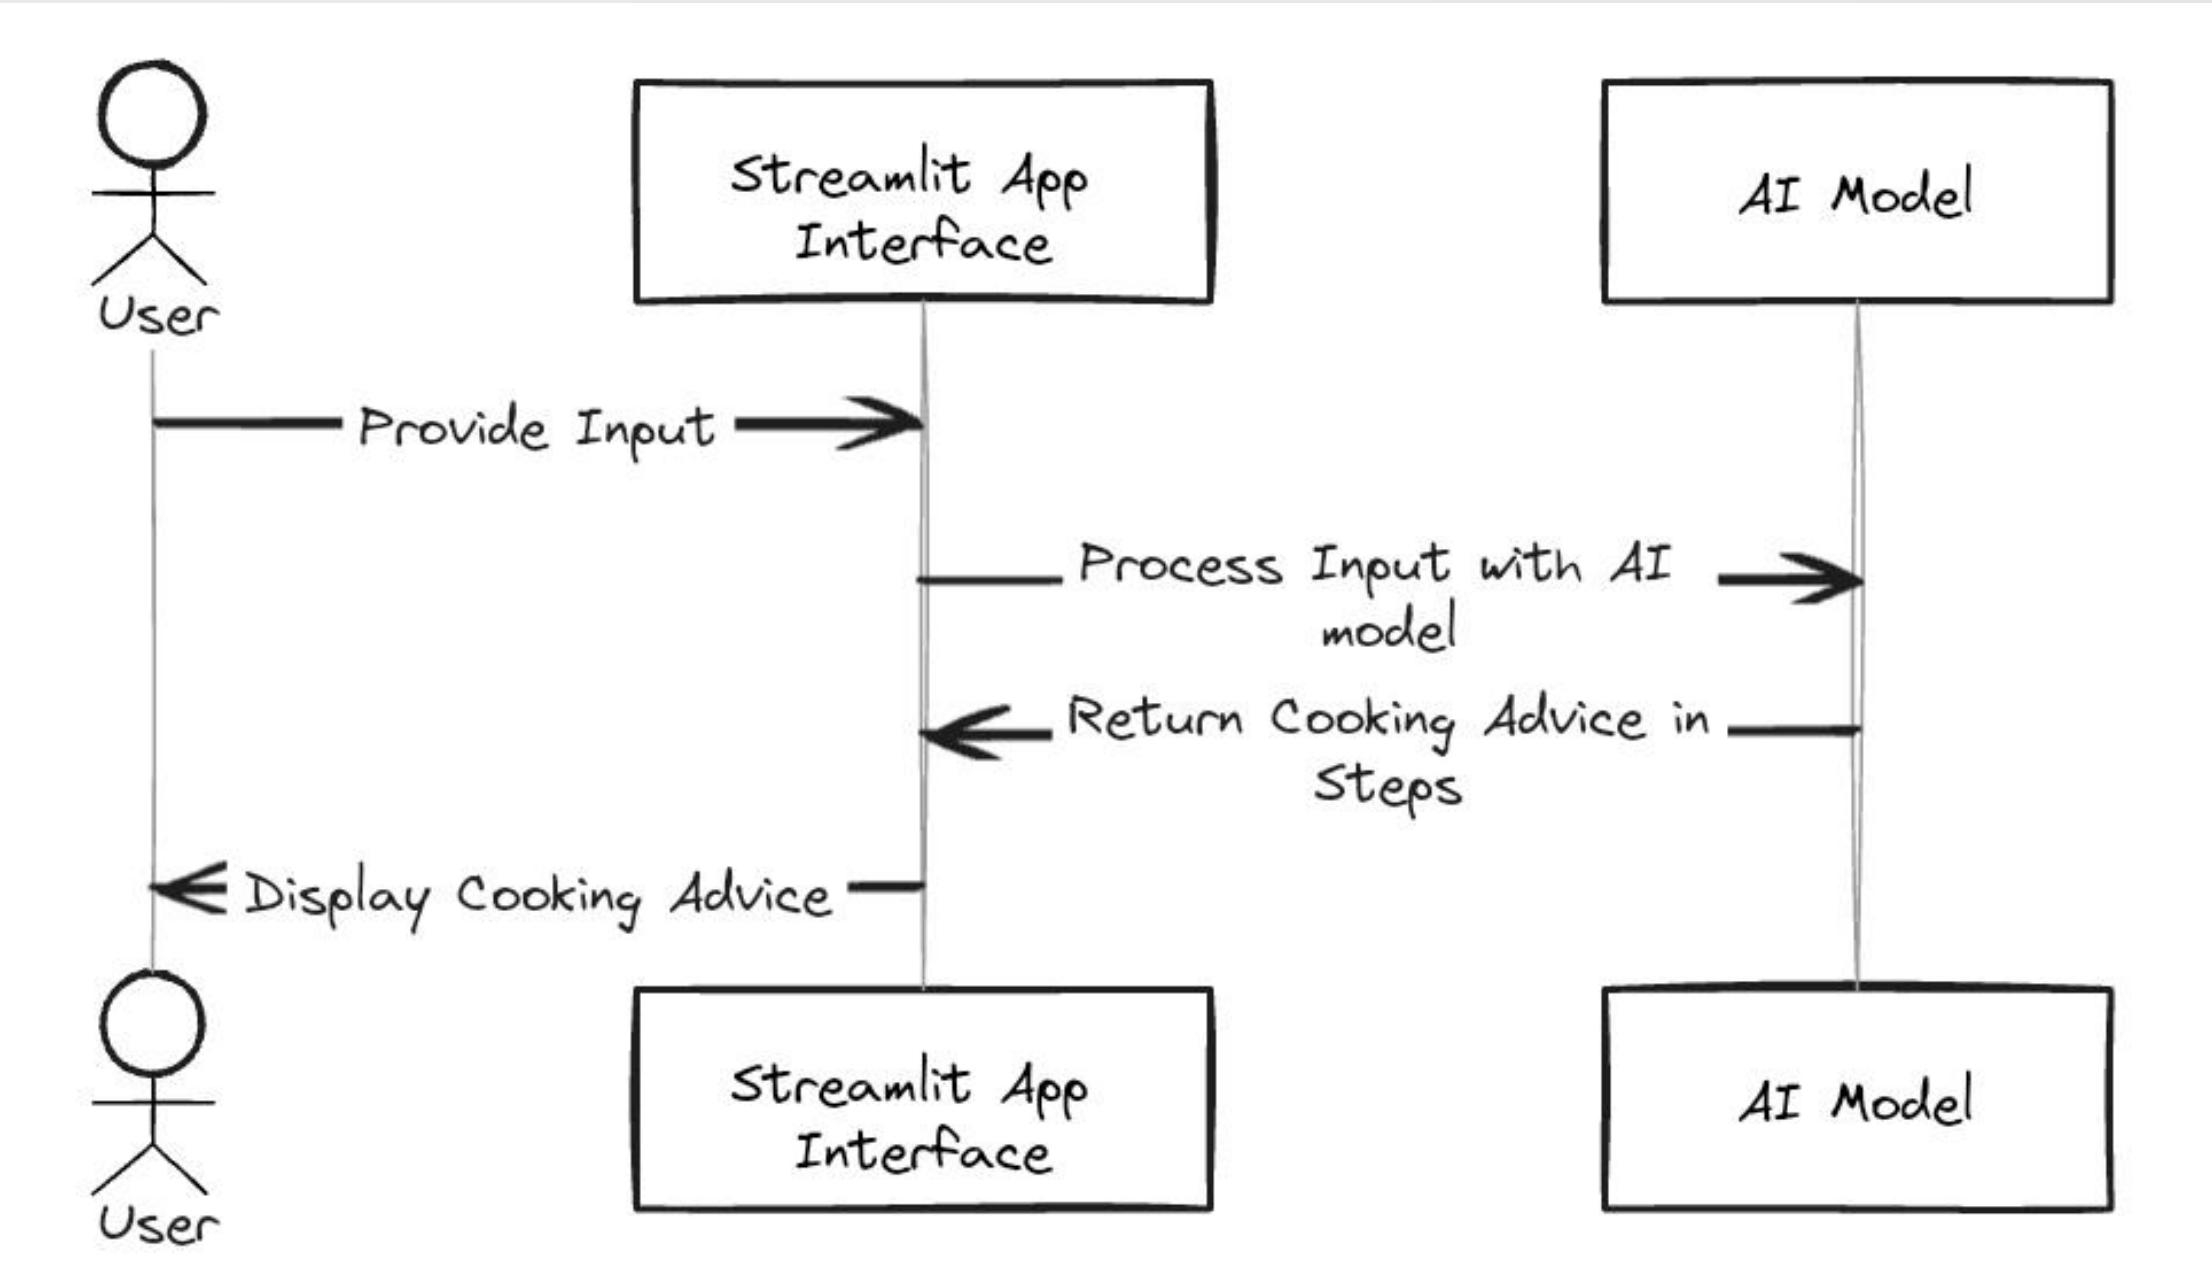

CookmeAI instantly provides concise cooking instructions, enabling Emma to quickly prepare a delicious meal without spending excessive time in the kitchen.

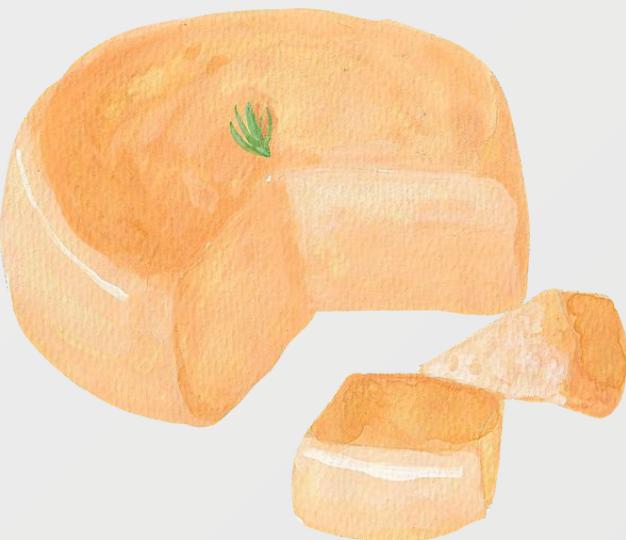

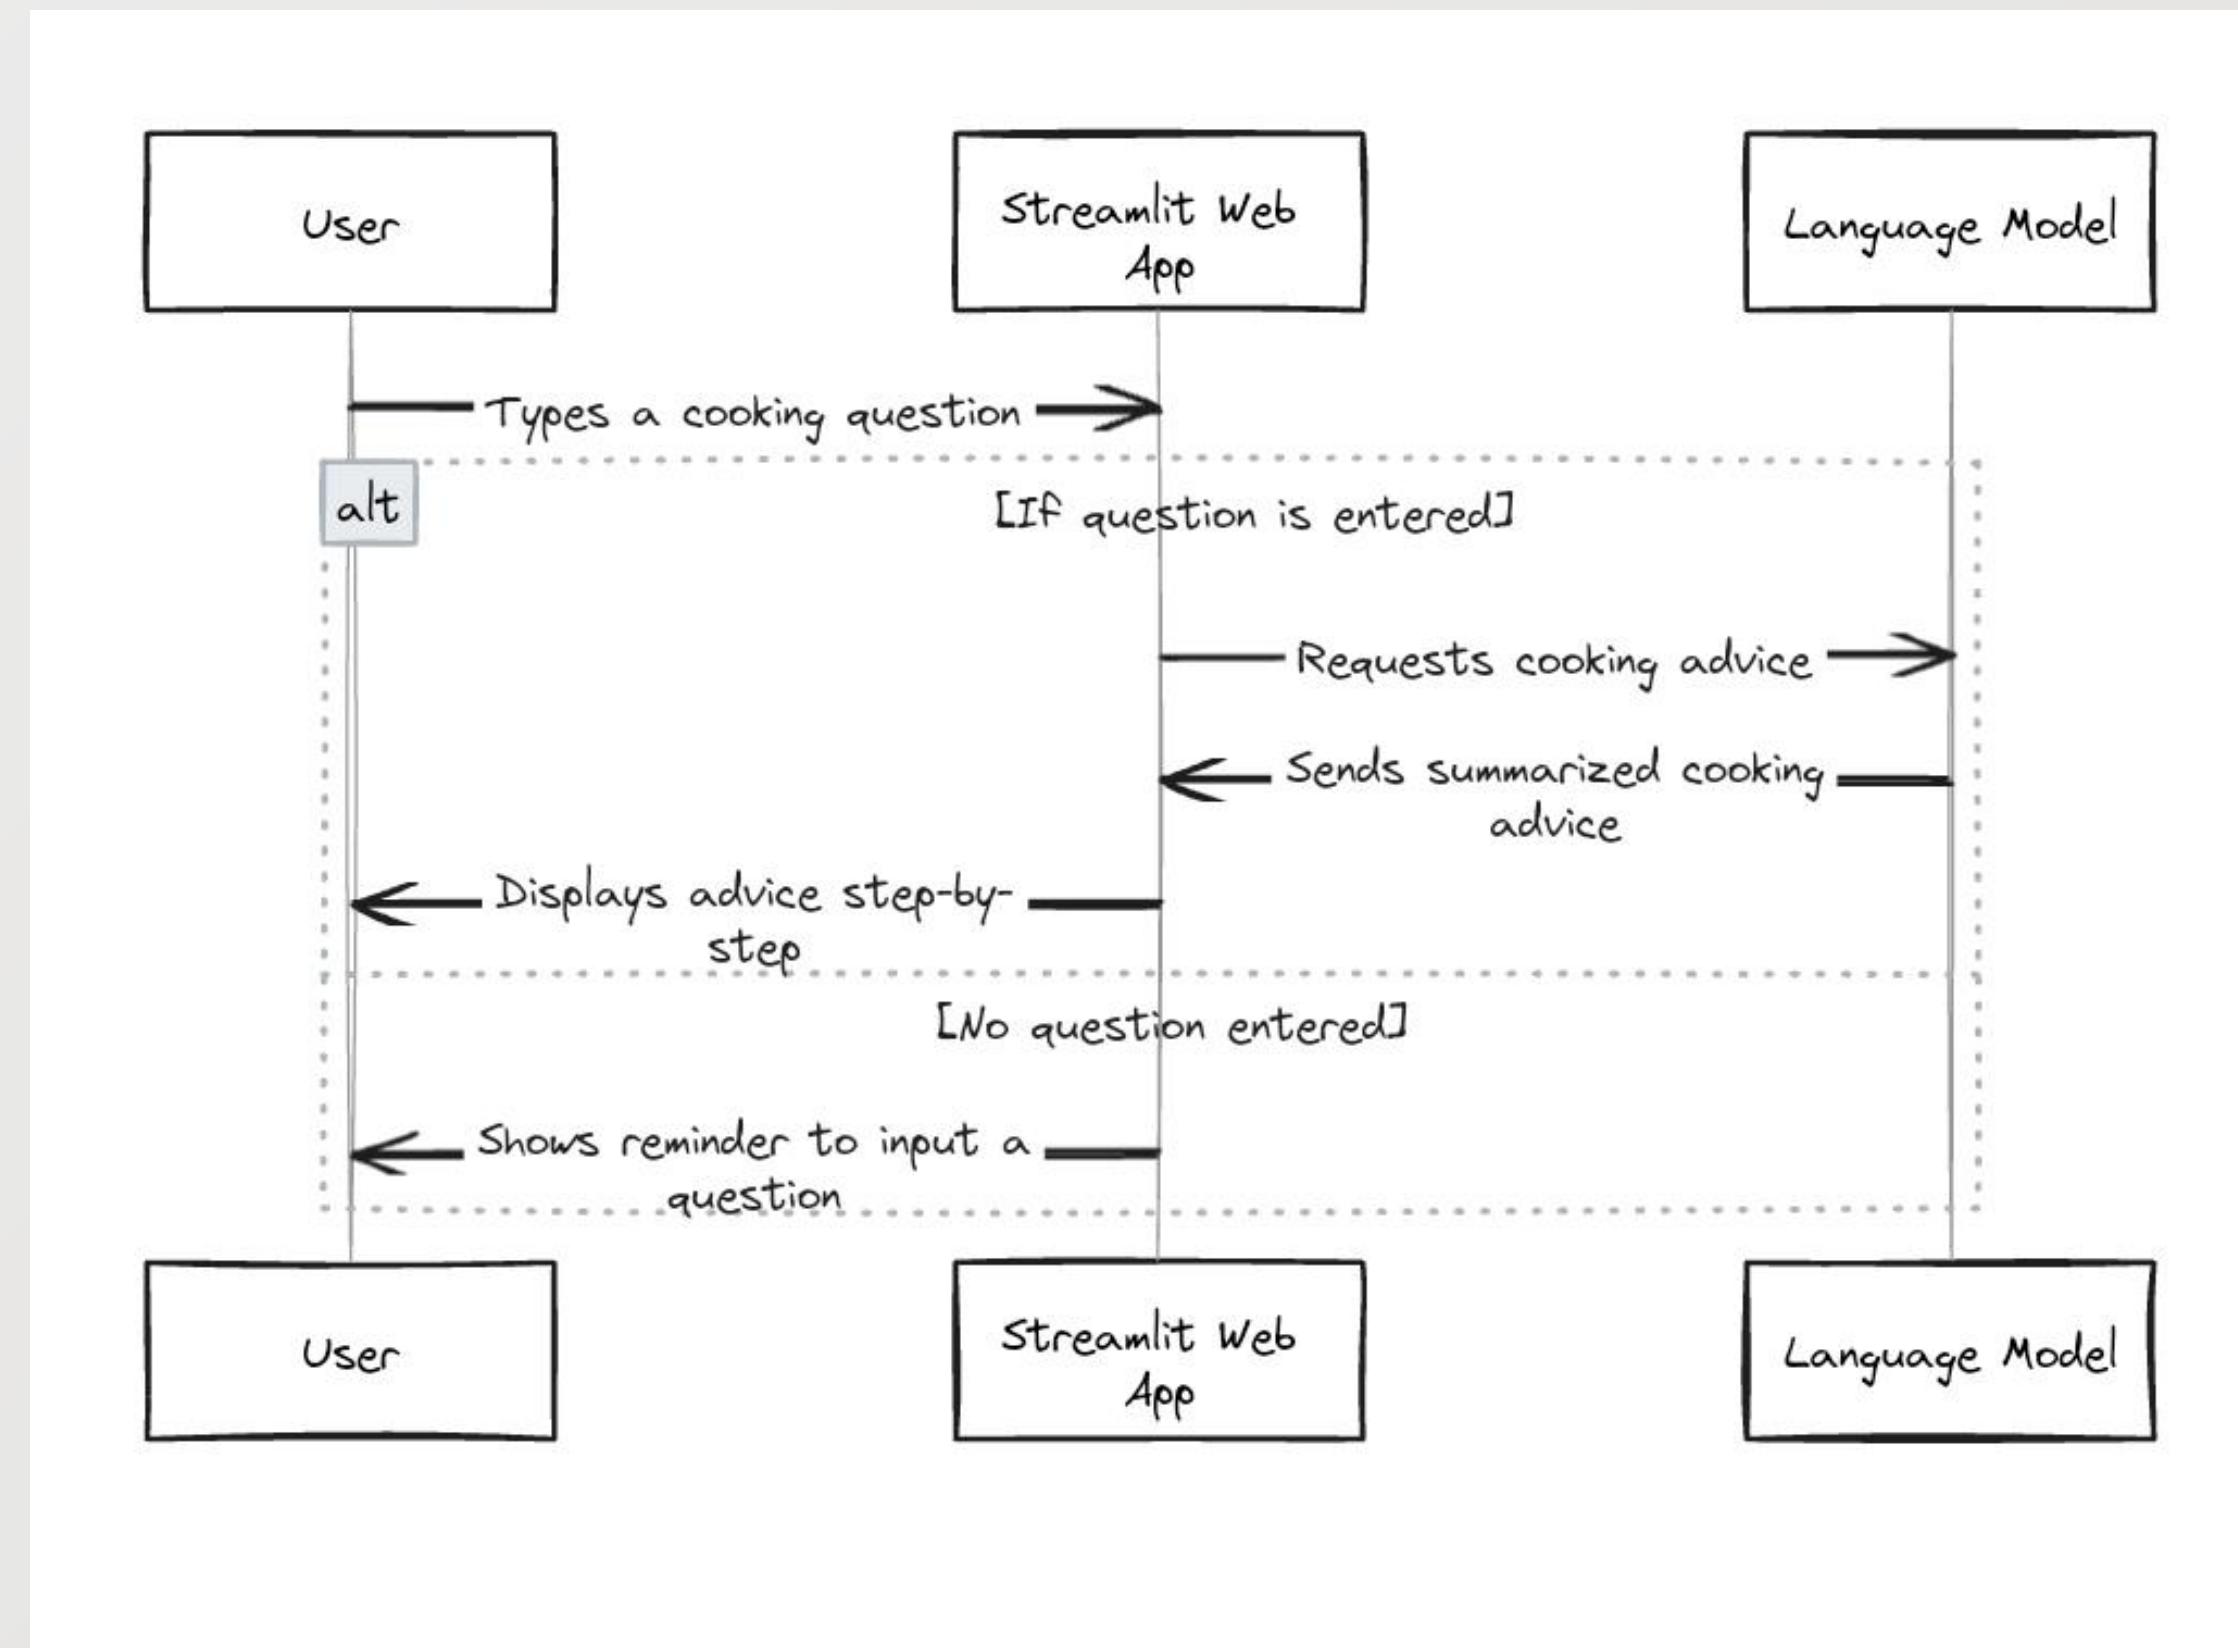

WORKFLOW

“

CookmeAI

CookmeAI

CookmeAI leverages AI technology to simplify
the cooking process for users of all skill levels.
